Dear Sir:

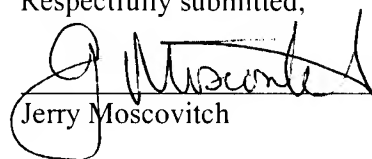

The following is submitted under 37 CFR §1.56 (Duty to disclose information material to patentability) and under 37 CFR §1.97 and §1.98 (Information disclosure statement) .

Attorney Richard Parr of the Canadian law firm Bereskin & Parr filed the instant reissue application at a time when Mark Elchuk was on record as being an inventor. Attorney Isis Caulder of Bereskin and Parr also filed some subsequent papers for this case while Mr. Elchuk was still on record as being an inventor. (Mr Elchuk was subsequently removed as an inventor.) To best knowledge and belief, Mr. Parr and Ms. Caulder are registered to practice before the Office as foreigners, under Title 37 C.F.R. §11.6 (c), in respect of applicants located in Canada. Moreover, to best knowledge and belief, Mr. Elchuk is located in the United States. The applicant requests that you consider these facts in light of Title 37 C.F.R. §11.6 (c). If you conclude that these facts adversely affect the patent rights of the applicant, he requests that you let him know as soon as possible so that he may take some remedial action. Such action might include filing a continuation of U.S. Patent Application 09/869,259 (of record) to include claims covering similar subject matter to that covered by the claims of the instant application.

In addition, an Information Disclosure Statement is being provided herewith containing references cited in the prosecution of the applicant's U.S. Patent Application 10/129883, which is of record.
